### **Texas Spine & Joint Hospital Announces New Outpatient Surgical Services**

Texas Spine & Joint Hospital is announcing the opening of a new outpatient surgery location on Golden Road. The facility, located on the 2<sup>nd</sup> floor of the MIT building, will expand the hospital's specialized services to more patients in the East Texas community. "We are glad to be a part of such a positive step forward in providing specialized medical care to the community," said Dr. Michael Russell, Chairman of the Board of Directors for Texas Spine & Joint Hospital.

TSJH Outpatient Surgical Services (OPSS) is the combination of two successful entities, Ambulatory Surgical Center of Tyler and the Texas Spine & Joint Hospital. "The merger was the perfect combination of specialized services and support to facilitate the expansion of orthopedic, ENT, and urology procedures at the Golden road location," said Tony Wahl, CEO of Texas Spine & Joint Hospital. TSJH OPSS houses clinical teams with decades of experience to insure that patients receive the best care available. The comfortable atmosphere creates a soothing environment for patients and families. Easy access to parking and efficient admissions helps take the stress out of the surgical experience.

The Grand Opening of Texas Spine & Joint Outpatient Surgical Service is scheduled for November 10, 2005 from 5:00-7:00pm at 3414 Golden Road. The public is welcome.
