

TEXAS SPINE & JOINT HOSPITAL

DELINEATION OF PRIVILEGES RADIOLOGY AND NUCLEAR MEDICINE

NAME: _____

INITIAL APPOINTMENT/REAPPOINTMENT
(CIRCLE ONE)

REQUESTED	PRIVILEGE	APPROVED	DENIED
RADIOLOGY			
	Fluoroscopy		
	Interpretation of Diagnostic Radiographs		
	Ultrasound Procedures - Diagnostic		
	Abdominal		
	Pelvic		
	Obstetrical		
	Cardiac (Echocardiography)		
	Computed Tomography - Diagnostic		
	Neurological (Including Spine)		
	Thorax		
	Abdomen & Pelvis		
	Skeletal & Extremities		
	Nuclear Medicine		
	Use of Diagnostic Radionuclides		
	Interpretation of ALL Wet Lab Diagnostic Radionuclide Procedures		
	Interpretation of ALL Nuclear Medicine Imaging Procedures		
	Use of Therapeutic Radionuclides		
	Radiation Therapy Procedures		
	Radionuclide (e.g., Cobalt 60 and Radiou)		
	Linear accelerator - Including Particle Beam		
	Radium and Other Therapeutic Radionuclides (Encapsulated)		
	Intracavitary		
	Interstitial		
	Magnetic Resonance Imaging (MRI)		
INTERVENTIONAL AND/OR INVASIVE PROCEDURES			
	Bronchography		
	Ranstracheal Approach		
	Nasopharyngeal Approach		
	Endobronchial Brush Biopsy		
	Sialography		
	Laryngography		
	Lymphangiography		
	Dacryocystography		
	Hysterosalpingography		
	Venography		
	Extremity		
	Orbital		
	Epidural		
	Other		
	Cystourethrography		
	Anthrography		
	Needle Biopsy - Percutaneous		
	CT Control		
	Ultrasound Control		
	Fluoroscopic Control		

REQUESTED	PRIVILEGE	APPROVED	DENIED
RADIOLOGY - CONTINUED			
	Neurological		
	Lumbar Puncture with Fluoroscopy		
	C1-2 Puncture with Fluoroscopy		
	Myelography		
	Radionuclide Cisternography - Including Lumbar Puncture		
	Radionuclide Shuntgram		
	Discography		
	Ventriculography		
	Jugular Venography		
	Renal Venography		
	Adrenal Venography		
	Aortography		
	Arch		
	Thoracic		
	Abdominal		
	Cerebral Angiography		
	Selective Carotid and Vertebral Catheterization		
	Selective Visceral Catheterization		
	Spinal Angiography		
	Extremity Angiography		
	Percutaneous Transluminal Angioplasty		
	Percutaneous Catheter Placement for Chemotherapy		
	Intra-arterial Embolic Procedures		
	Central Nervous System		
	Other		
	Hepatic		
	Percutaneous Transhepatic Cholangiogram		
	Percutaneous Biliary Drainage		
	Percutaneous Nephrostomy Tract and Retrieval of Urinary Calculi		
	Percutaneous Cyst Puncture		
	Percutaneous Needle Biopsy with CT or Ultrasound Guidance		
	Percutaneous Drainage of Abscess and Fluid Collections		
	Fluoroscopic Control		
	Ultrasound Control		
	CT Control		
	Catheter Procedures (other)		
	T-tube Cholangiogram		
	Nephrostogram		
	Fistulogram		
	Angiography		
	Via Direct Cutdown		
	Percutaneous (Selding) Approach		
	Pulmonary Angiography		
	Coronary Angiography		
	Intracardiac Angiography		
	Cavography - Superior and Inferior		
MISCELLANEOUS			
	Conscious Sedation (SEE ATTACHED CRITERIA AND APPLICATION)
